Agent User Manual

Real Buyer Feedback. Better Vendor Conversations.

Everything you need to get the most from premarket

Welcome to Premarket

Premarket is a pre-market property platform that connects agents with serious buyers before a property hits the open market. This manual will guide you through listing a property and understanding your dashboard.

Why Premarket?

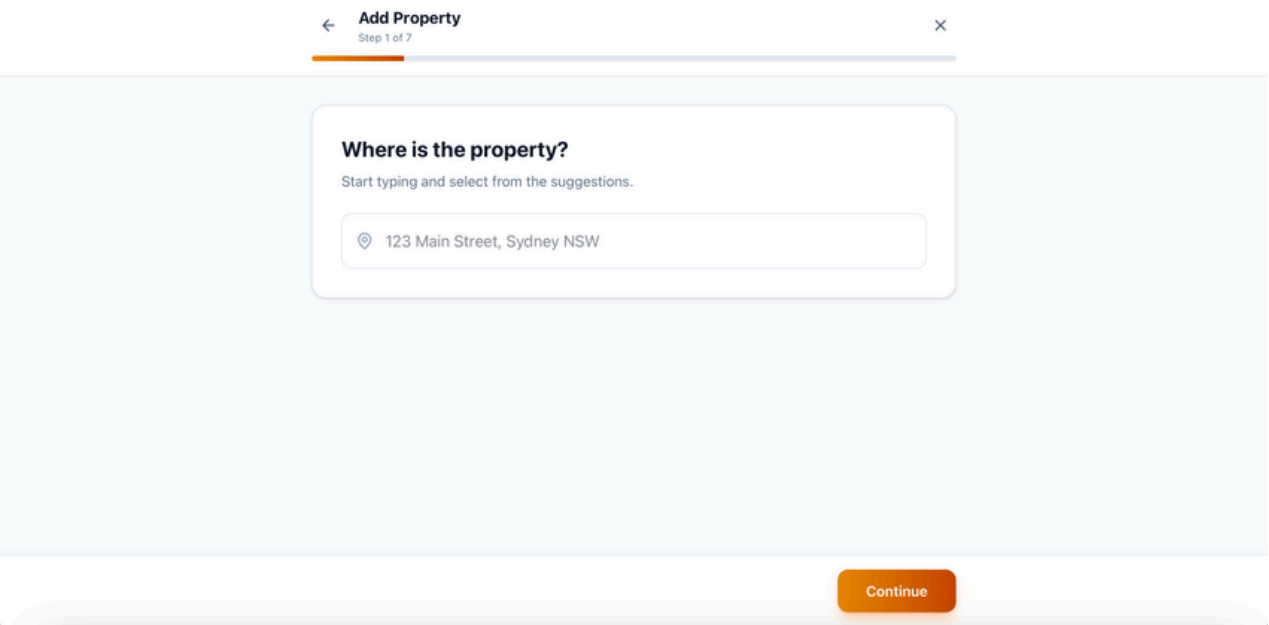
- Gauge genuine buyer interest before going public
- Receive data-driven price feedback from the market
- Identify serious buyers early in the process
- Make informed pricing decisions with confidence

Listing a Property

Adding a property to premarket takes just a few minutes. Follow these 7 simple steps:

Step 1: Enter the Property Address

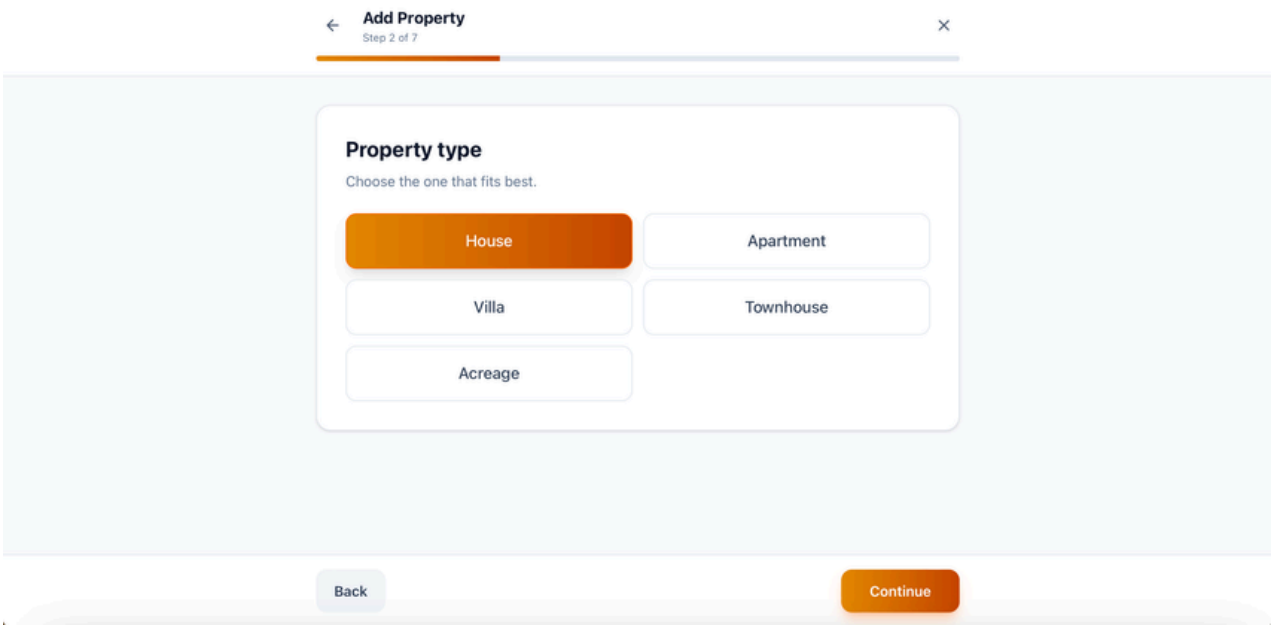
Start typing the property address and select from the Google-powered suggestions. This ensures accurate location data for your listing.



Enter the full property address

Step 2: Select Property Type

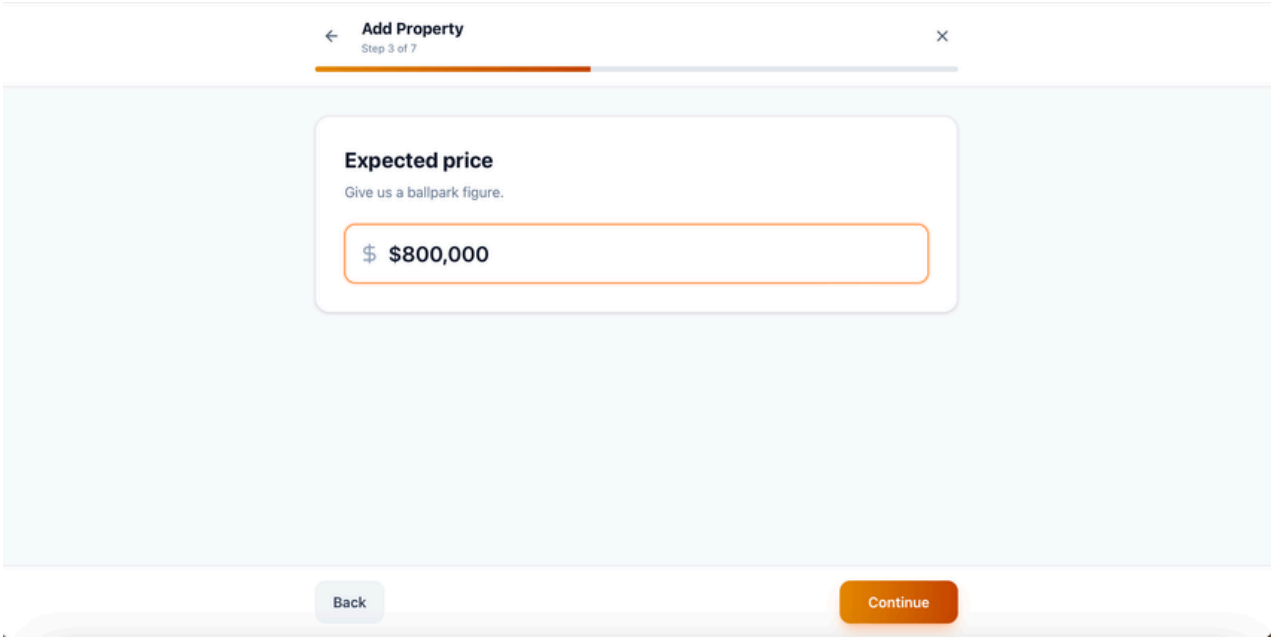
Choose the property type that best describes the listing: House, Apartment, Villa, Townhouse, or Acreage.



Select the appropriate property type

Step 3: Set Expected Price

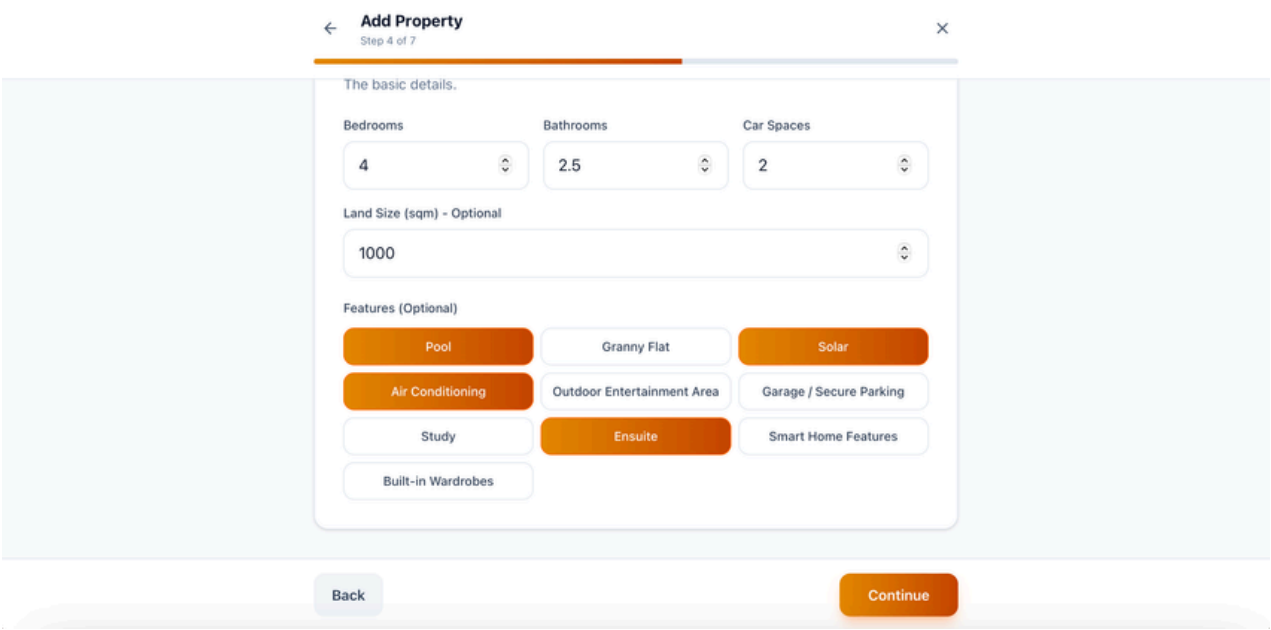
Enter your expected sale price. This is the figure buyers will see and provide feedback on. Be realistic - the market will tell you if it's on target.



Enter the expected sale price

Step 4: Add Property Details

Enter the key property specifications: bedrooms, bathrooms, car spaces, and land size. Then select relevant features like pool, solar, air conditioning, and more.



Add property specifications and features

Step 5: Upload Photos & Video

Upload high-quality photos to showcase the property. You can also add an optional walkthrough video. Drag and drop files or click to browse. Supported formats: JPG, PNG, MP4, MOV, WebM.

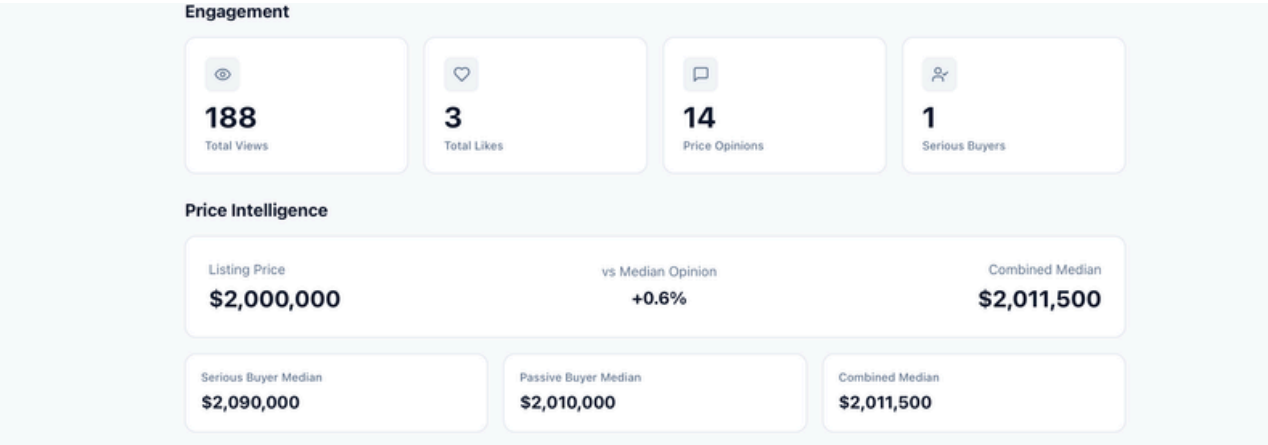
Understanding Your Dashboard

Once your property is live, the dashboard provides real-time insights into buyer engagement and market sentiment.

Engagement Metrics

Track how buyers are interacting with your listing:



Key engagement metrics at a glance

- Total Views: How many buyers have seen your property
- Total Likes: Buyers who've expressed interest
- Price Opinions: Number of buyers who've provided price feedback
- Serious Buyers: Buyers marked as highly interested

Price Intelligence

See how the market values your property compared to your listing price. The Combined Median shows the average price opinion across all buyers.

Price Distribution & Buyer Breakdown

Understand where buyer opinions cluster and identify different buyer types:
